TJ PARK FOUNDATION

Fostering Future Talent

The POSCO TJ Park Foundation, which was founded in 1971 by the Steel Scholarship Foundation, has cultivated the human resources necessary for Korean society and inherited the aspirations of late chairman Park Tae-joon.

As POSCO's global social contribution activities, we carry out scholarship, academic, and cultural projects systematically and extensively, and strive to create social values not only in Korea but also in Asia.

So far, POSCO TJ Park Foundation has supported **6,100** overseas students from **33** countries to help more human resources around the world devote themselves to their studies in a stable environment.

While our insights pursue a global dimension, our compass will always refer to a **"Society that grows together."**

Expand the range of growth

POSCO SCIENCE FELLOWSHIP

Fostering 'Talent in science and technology' that will lead the future growth engine of Korea.

Young Professor

We support and encourage young scientists who have just been appointed as assistant professors, so that they contribute to directing Korea to a scientifically advanced country and, eventually, become Nobel laureates.

POSCO TJ PARK PRIZE

'A hall of fame' to invite role models of the society of the time.

Science Prize

A person who has achieved creative research achievements in the fields of natural science and engineering

Education Prize

A person or an organization that contributed to educational development by taking actual actions, based on creativity and pioneering spirit

Community development and philanthropy prize

A person or an organization that practices neighborly love in the spirit of service and sacrifice, solving social problems such as poverty

Technology Prize

A CEO or CTO who contributed to the development of national industries by creating new growth engines through globally-acknowledged technological innovation and industrialization

POSCO YOUTH FELLOWSHIP

'Ladder of Hope' to resolve inequality in education

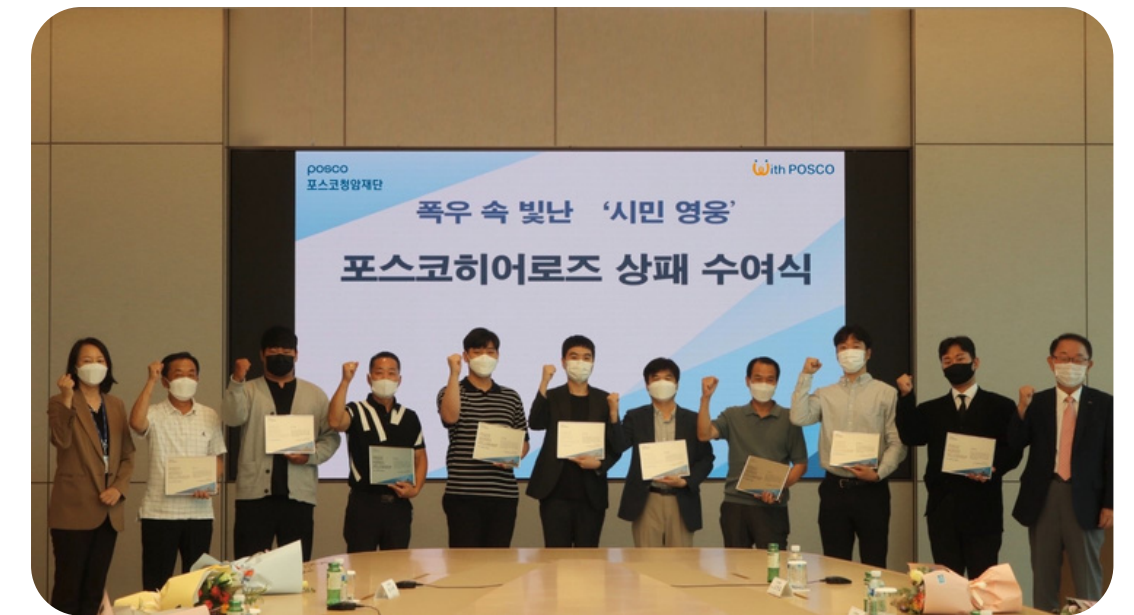

POSCO Vision Fellowship

A scholarship that helps college students who are struggling financially to develop human resources through education inequality to become good members of society with hope and vision.

POSCO Lighthouse Fellowship

A scholarship to create a stable academic environment for role-modeled high school students who concentrate on their studies in Pohang and Gwangyang, Korea, where POSCO's steel mills are located.

POSCO Heroes Fellowship

Those who sacrifice themselves for the sake of righteous and just society are appointed as "Heroes" and awarded this scholarship so that they themselves or their children continue their studies with less financial burden
